

Career Objective

Motivated MCA (Data Science & Analytics) student with a strong foundation in Core Java, Python, SQL, JDBC, Object-Oriented Programming, and Data Structures & Algorithms. Experienced in building software applications and working with MySQL, Git, and GitHub while following software development best practices. Familiar with the Software Development Lifecycle (SDLC), version control, and data analysis using Python. Basic knowledge of Power BI, Generative AI tools, and finance concepts, with a strong willingness to learn emerging technologies. Passionate about solving real-world problems, collaborating with teams, and contributing to innovative software and data-driven solutions in a dynamic organization.

Educational Qualification

- **MCA – Master of Computer Application** | Jawaharlal Nehru New College of Engineering | 2026
- **BCA-Bachelor of Computer Application** | SR Nagappa Shetty Memorial National College of Applied Sciences | 2023
- **PUC – Commerce** | Priyadarshini Independent PU College, Shimoga. | 2020
- **SSLC** | Priyadarshini English High School | 2018

Projects

SUZUKI BIKE MANAGEMENT SYSTEM

- Designed and developed a bike showroom management system to manage bike inventory, customer information, and sales transactions.
- Implemented features for adding, updating, deleting, and searching bike and customer records with efficient database integration.
- Built a responsive interface with secure database connectivity to streamline showroom operations and maintain accurate records.

Technologies: Java, JDBC, MySQL, HTML, CSS

Air Canvas Using Hand Gestur

- Developed a virtual drawing application using **Python**, **OpenCV**, and **MediaPipe** to enable users to draw on a digital canvas through real-time hand gesture recognition. Set up networking components including floating IP, security groups, and instance connectivity.
- Implemented computer vision techniques to detect and track hand landmarks for accurate gesture-based interaction.
- Designed features such as color selection, drawing, erasing, and canvas clearing without requiring physical input devices.

Technologies: Python, OpenCV, MediaPipe, NumPy, Computer Vision

Technical Skills

- **Programming Languages:** Core Java, Python, SQL, JDBC
- **Data Structures & Algorithms:** Strong understanding of fundamental data structures and problem-solving
- **Databases:** MySQL, SQL (Data Manipulation & Querying)
- **Web Technologies:** HTML, CSS, JavaScript
- **Version Control:** Git, GitHub
- **Software Development:** Object-Oriented Programming (OOP), SDLC, Debugging, Testing
- **Data Analytics:** NumPy, Pandas (Basic)
- **Tools & Platforms:** VS Code, IntelliJ IDEA, MySQL Workbench
- **Emerging Technologies:** Basic knowledge of Generative AI tools (ChatGPT, Microsoft Copilot), Power BI (Basic)

Internship

Software Development Intern — Xworkz ODC, Bangalore

February 2025 – May 2025

- Developed backend modules using Java, JDBC
- Implement CRUD operations using MySQL
- Collaborated using Git-based workflows and participated in code reviews.
- Focused on writing clean, maintainable, and reusable backend code.

- Built responsive user interfaces using **HTML, CSS, JavaScript, and Bootstrap**.
- Implement CRUD operations using MySQL
- Designed and integrated **MySQL** databases for efficient data storage and retrieval.
- Collaborated using Git-based workflows and participated in code reviews.
- Gained hands-on experience in the complete software development lifecycle, including requirement analysis, development, testing, and deployment.

Technical Summary

- Strong foundation in Core Java, Python, SQL, JDBC, and Object-Oriented Programming.
- Good understanding of Software Development Lifecycle (SDLC), debugging, testing, and software maintenance.
- Hands-on experience with MySQL, SQL queries, CRUD operations, and database integration.
- Familiar with Git and GitHub for version control and collaborative software development.
- Basic knowledge of data analysis using Python (NumPy, Pandas) and data visualization concepts.
- Awareness of Generative AI tools, automation concepts, and their use in improving productivity.
- Quick learner with strong analytical, communication, and problem-solving skills, eager to contribute in a collaborative environment.

Awards and Certificate

- Oracle Cloud (technical foundation)
- Deloitte Data Analytics (data analysis experience)
- HP Data Science & Analytics (analytics concepts)
- Big Data Analysis (big data awareness)
- Kaggle Python Coder (Python proficiency)
