

JASHWANTH D B

✉ jashwanthb45@gmail.com ☎ +91 9019004060 📍 Shivamogga, Karnataka

PROFILE

MCA graduate with hands-on experience in Manual Testing, Selenium WebDriver, Core Java, SQL, API Testing, TestNG, and Maven. Experienced in designing test cases, executing functional and regression testing, and developing Page Object Model (POM) automation frameworks. Quick learner with strong analytical and debugging skills, passionate about software quality, automation, and learning modern testing technologies including Python and AI-assisted testing.

EXPERIENCE

Web Development Intern

06/2024 – 07/2024

Innovative IT Solutions

Shivamogga

- Developed backend modules using PHP and MySQL for a Travel & Tourist Management System.
- Tested application functionality, validated database operations, and resolved defects during development.
- Collaborated with team members to ensure application quality and successful deployment.

EDUCATION

MCA

2026

Jawaharlal Nehru New College of Engineering

Shivamogga

Percentage: 85%

BCA

2024

Government First Grade College

Shivamogga

CGPA: 8.7

TECHNICAL SKILLS

WEB TECHNOLOGIES

HTML, CSS, JavaScript.

DATABASE MANAGEMENT

SQL, MySQL.

TESTING

Manual Testing, API Testing, Smoke Testing, Sanity Testing, Test Case Design, SDLC, STLC.

PROGRAMMING LANGUAGES

Core Java (OOP Concepts, Collections Framework, Exception Handling), Python, PHP.

AUTOMATION TESTING

Selenium WebDriver, TestNG, Maven, Page Object Model, Data Driven Testing(Apache POI).

TOOLS & TECHNOLOGIES

Git, GitHub, Postman, Eclipse, IntelliJ IDEA.

LANGUAGES

- English, Kannada, Hindi

SOFT SKILLS

- Analytical Thinking
- Team Collaboration
- Debugging Mindset
- Time Management

TRAINING

Software Testing Training

QSPIDERS

- Duration: 6 Months
- Completed intensive Software Testing training covering Manual Testing, Selenium WebDriver, Core Java, SQL, API Testing, TestNG, and Maven.
- Designed and executed test cases for Functional, Smoke, Regression, and End-to-End testing following SDLC/STLC methodologies.

- Built reusable Selenium automation frameworks using the Page Object Model (POM) with Data-Driven Testing using Apache POI.
- Performed API validation using Postman and collaborated using Git for version control.

PROJECTS

VTiger CRM – Selenium Automation Testing

- Designed and automated end-to-end test scenarios for Login, Leads, and Contact Management modules using Java, Selenium WebDriver, TestNG, and Maven.
- Developed a reusable Page Object Model (POM) framework to improve maintainability and scalability.
- Implemented Data-Driven Testing using Apache POI to validate multiple test scenarios.
- Executed Functional, Regression, and Smoke Testing while identifying and reporting defects.
- Managed source code using Git and Maven for dependency management.

Pneumonet - Pneumonia Detection

- Developed an AI-based Pneumonia Detection system using Deep Learning and CNN models for chest X-ray image classification.
- Performed image preprocessing, augmentation, and model training using Python, TensorFlow/PyTorch, and OpenCV.
- Implemented transfer learning techniques to improve prediction accuracy and reduce model training time.
- Managed the complete machine learning workflow including dataset handling, training, testing, and prediction generation.
