

Career Objective

Entry-level Software Engineer with expertise in Java, OOP, Spring, and MySQL. Experienced in developing RESTful applications through projects and internships, with knowledge of SDLC, Git, and debugging. Strong analytical skills and eager to contribute to organizational success.

Educational Qualification

- **B.E. – Information Science & Engineering** | Sai Vidya Institute of Technology | 2021 – 2025 | CGPA: **8.42**
- **PUC – PCMB** | Science Academy PU College | 2019 – 2021 | **78.6%**
- **SSLC** | Seshadripuram High School | 2018 – 2019 | **81.44%**

Projects

TECH BRIDGE SUPPLY SYSTEM

- Designed and developed backend modules using Java and Spring MVC following layered architecture principles.
- Built REST-style backend components for vendor onboarding, product management, and purchase approvals.
- Implemented transactional workflows with JPA and MySQL ensuring data integrity and consistency.
- Applied validation, exception handling, and logging to improve system reliability.
- Documented backend APIs using Swagger for easier integration and testing.

Technologies: Java, Spring MVC, JPA, MySQL, Swagger, Git

RETINAL FUNDUS IMAGE BY GLAUCOMA DETECTION USING DEEP LEARNING

Developed an application to automatically identify early signs of glaucoma from retinal fundus images using deep learning techniques. Implemented image preprocessing, feature extraction, and classification to improve diagnostic accuracy and support early detection for ophthalmologists.

Technologies: Python, TensorFlow, Keras, OpenCV, NumPy

Technical Skills

- **Programming Languages:** Java (Core, OOP, Collections, Java 8)
- **Backend Technologies:** Spring MVC, REST APIs, JDBC, JPA/Hibernate
- **Web Technologies:** HTML, CSS, JSP, Servlets
- **Databases:** MySQL, SQL
- **Tools & Platforms:** Git, GitHub, Swagger, Postman, IntelliJ IDEA

Internship

Software Development Intern — Xworkz ODC, Bangalore

February 2025 – Present

- Developed backend modules using Java, Servlets, JSP, JDBC, and Spring MVC.
- Implemented CRUD operations with MySQL following MVC and layered architecture.
- Collaborated using Git-based workflows and participated in code reviews.
- Focused on writing clean, maintainable, and reusable backend code.

Technical Summary

- Strong proficiency in **Java** with solid understanding of **Object-Oriented Programming (OOP)**, **Collections**, **Exception Handling**, and **Java 8 features** (Lambda, Streams, Functional Interfaces).
- Hands-on experience in **backend development** using **Spring MVC**, **Servlets**, and **JDBC** to build scalable and maintainable web applications.
- Good knowledge of **RESTful API development**.
- Experienced in **database design and management** using **SQL and MySQL** for high-performance applications.
- Familiar with **Lombok** to enhance code readability and reduce boilerplate.
- Proficient in **Git and GitHub** for version control, collaborative development, and code management.
- **GitHub contributor with 200+ contributions**, demonstrating continuous learning and project engagement.
